**WORKING WITH SELLERS | WEEK 7**

# Privacy Access and Pet Plan

Agree on arrangements before photos, showings and vendor visits. Store access credentials through the brokerage's approved process, not on this sheet.

**Property / agent contact**

## Before cameras or visitors arrive

- ☐ Remove personal information from view, including screens, mail, schedules and passwords.
- ☐ Appropriately secure valuables, documents, medications and firearms.
- ☐ Discuss visitor photography preferences and how the agent can communicate them.

**How appointments will be requested and confirmed**

**Notice needed / household scheduling or accessibility arrangements**

**Pet location and responsible person during each visit**

**Who handles arrival, departure and checking the home afterward**

**How changes, concerns or unconfirmed visitors will be handled**

Do not include lockbox combinations, alarm codes, Wi-Fi passwords or detailed storage locations for valuables. Photography restrictions can be communicated but cannot guarantee that no visitor takes a picture.
